FOR THE SEA ISLANDS. - We direct the attention of planters and shippers to the advertises the steamer Morgan, which appears in another column. The Morgan is commanded by Captain Jos. F. Torkent, and will ply regularly between Edisto, Bockville, and the way landings. As the sesson is now approaching when the planters move to their summer houses, a good many changes will be made, and the Morgan will be found a commodious boat, admirably adapted for the coast trade. She leaves Vanderhorst's Wharf on the 3d, and all parties applying will receive prompt attention.

CHARLESTON CITY DIRECTORY.—We have received a copy of the first edition of this work for 1867-68, led and published by J. Oran Lea & Co., of this city. Upon an examination of it, we are very much pleased with its correctness, as well as the amount of information contained in it, the result, no doubt, of considerable labor and attention. In fact we regard it as the best Directory of our city that has ever been issued. The typographical appearance of the book is really creditable.

MR. METCHERS, of the Central News Depot, has our thanks for late numbers of the Kriminal and Staats Zeitung.

OUTRAGE.-A sailor landlord named RICHARD MURPHY, who was endeavoring to put a seaman of the name of CHRISTY SCHULTZ on board of a boat, so as to have him conveyed to the vessel on board of which he had shipped, used such force in throwing him into the boat as to fracture one of his ribs, and injure him otherwise. The saflor isted MURPHY because, as he said, the landlord owed him \$30, which he refused to pay. The per-ties have been sent before a Magistrate.

TRADE is the thing above all others we want just now, and this Mr. Wansworn kindly proposes give us. In another column will be found his adnt, announcing the publication of thern Railroad Directory and Business Men's Medium, that shall restore to the merchants of Charleston their former trade with the South and Fouthwest. Mr. A. F. MELCHERS, No. 108 Market s'reet, is the local agent, and will begin to-day canvassing for subscribers to the Directory. We wish him every success.

MAYOR'S COURT. June 29 .- Peter Magraw, an ug ly and a black man, who had been imbibing fighting whiskey, and who, when it broke out, express ed a general desire to whip "all natur," and a par lar anxiety to have a set-to with one of the U. S. detectives, was fined \$5.

An individual who was in a hurry to get to New York, and foundered in a bar before he got to the water, was fined \$5, but if he does go on in the er, the fine is to be remitted.

An old habitus, who was found lying drunk in the street, "as was his custom," was fined \$5, in accordance with an old habit of his Honor. amilton and Edward Matthews, two you slored men, who had a quarrel in school, and a fight in the street, were fined, the first \$4, and the

DEATH OF MR. WHITE. On Saturday morning unity was pained to learn of the death of Mr. Warrs, one of the proprietors of the Charleston Hotel. Mr. W. had been in ill health for some time, though none of his friends antici-pated a fatal termination to his illness, and at such an early period, especially as he kept up to the very last, having gone about the house, nearly as as born in Rathkeale, Limerick, Ireland, but came to this country when quite young. He be-came connected with the Charleston Hotel in 1849, ng at first in an humble capacity, and rose by gular gradations to the responsible position of

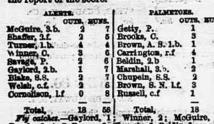

in which, about a year ago, he associated Mr. G. G. MIXER with himself. During the long period of his conn this popular hotel, Mr. WHITE was always known as a man of the strictest integrity, very systematic in all his transactions, quiet and unobtrusive, to a fault almost, very kind and pleasant in his deportment to those who enjoyed his confidence and intimacy, and benevolent to the needy. His death is a serious loss to the community. He was about forty-five years of age, and we believe had neve

Base Ba L. The following is the report of the Match Game of Base Ball between the Palmettos and the Alerts, on Saturday the 29th ult.

At two o'clock Saturday afternoon, above eight undered people assembled on the Citadel Square, as the game which was announced to take place that day. The weather was fine, the players being shiltered from the rays of the sun by the clouds, and refreshed by a fine breeze. At twenty minutes past three the game was called, the Palmettos getting the bat.

The game has proved satisfactory to all, and we beg leave to tender our congratulations to the Alerts. We now await a match between the respective first nines of the Clubs, feeling assured, that it will be warmly contested. We are requested by the players to return their thanks to the Police in attendance, for the effective manner in which they performed their duty. Below we give the report of the score.

July is universally considered to be the warmest month of the year in the Northern Hemisphere, notwithstanding the fact that the sun has med his course of recession from the Tropic of Cancer. This is owing to the accumu-lating effect of the heat while the sun is still so long above the horizon. In a table formed from the most careful observation it is found that the mean temperature of the air during the month appears to be about ninety degrees. The sun is in Cancer for the greater part of the month, and enters Leo about the 22d. The great heat of the month led to a superstition among the Romans that the warmth, and the diseases and other calamities flowing from it, were in some way connected with the rising and setting of the star Canicula—the Little Dog. They accordingly conferred the name of Dog Days upon the period between the 3d of July and the 11th of August. The utter carelessness of the Roman theory has been and Valuables. well shown by the ordinary processes of nature, for the Canicula does not rise in coincidence with WILL CALL FOR AND DELIVER FREIGHT the sun until the later days of August. Notwithstanding this, the "dog days" continues to be a

We understand, however, that petition has been circulated to have the disability removed from five or six of the principal restaurants, but at present this is merely town talk, and there are few places where refreshment for man

or beast can be obtained. In the Council proceedings will also be seen a Bill providing for the payment of the debt of the city. Those persons owning stock will find it to their interest to examine its provisions.

B. D. TOWNSEND, Esq., formerly of Bennettsville, now of Society Hill, has been long known to the people of this State as an ardent advocate of temperance, and an enthusiastic propagandist of the order of the "Sons of Temperance." No amount of labor, no expense of time or money, was shunned by him in the full discharge of wha he deerged his duty to the cause; and it is pleasant to be able to record that such zeal, devotion and enthusiten was not without reward. Major Townsern successively held all the offices within the gift of the order to the very highest-"Most Worthy Pairiarch of the National Division of North America." While he was in the discharge of the duties of the latter office he was presented with a set of gorgeous and costly regalia, the insignia of his post of honor. But at the expiration of his term of office, it appears that he was again how ored, and those of our readers who are curious in such matters, by stepping into Mr. A. H. HAY-DEN'S store, corner King and Hasel streets, will see a large, elegant oval frame, adorned with the emblems of the order, within which the following preamble and resolutions are engrossed in the fiest style of caligraphic art:

G IN, AS A REMEDIAL AGENT, HAS BEEN IN FA

C IN, AS A REMEDIAL AGENT, HAS BEEN IN FAVOR with the profession for a very long period, but owing to the difficulty of obtaining a pure article, it has fallen into disuse in many sections of the country, much to the regret of medical men, who consider it almost a specific in very many diseases. For all cases of Grazel, pure Gin, if administered under professional guidance, will certainly work a cure; and if taken as a preventive, acting, as it does, on the sensitive membranes, it cleanses the parts so as to remove all possible sediment. Administered in the same way, it will prevent the formation of Calculis, and do away with those terrible operations, therefore, so necessary for their permanent removal. Gin is of incalculable benefit to females in those diseases so peculiar to the sex, and from its tonic, as well as its anodyne properties, it is frequently superior to iron, bark, or even the electrical remedies. In cases of a positive tendency to Phitists, or Consumption, Gin, in proper quantities, by supplying or filling up the constant dying out of the instartal fire of the system, will often entirely ward off that swiful disease, which carries off one-cighth of the population of the United States annually. Pure Gin has this peculiar advantage over other diffusible stimuli, that it exhibitants without creating any thirst of an unhealthy character, it soothes while it also excites, and is a powerful nervine as well as an active tonic.

INGERSOLL'S

For Convenience, Economy and Cheapness, the greatest Labor Saving Machine that can be put on a Plantation.

OPINIONS OF THE PEOPLE: ALLENDALE, BARNWELL DISTRICT, S. C., March 1, 1807.

Mesars. Little & Marshall:

GENTLEMEN: I used, during the past season, one of "Ingersoll's Portable Cotton Presses," purchased of you last september. I have always been prejudiced in favor of the "Screw Press," and nothing but dire necessity induced me to try any othor. I take pleasure, however, in adding my testimony in favor of its entire adaptation to the wants of a cotton plantation. It has surpassed my most sanguine expectations. I have packed with but two hands, yet I prefer four—two at each lever. My bales all weighed over 500 lbs. The first lot I sent to market averaged 562 lbs. My impression is that 500 lbs. is about the capacity of the Press, and a greater number of pounds subject the follow-block to too much risk, unless the sides of the cotton box was increased. It would add greatly to the value of the Press if the cotton box was ten inches longer. In haste, I am, very respectfully, Your obedient servant, &c. B. W. LaWTON.

P. S. I took my Press down and carried it some four miles to pack the crop of a neighbor, who failed to have a "Screw" built; he was so much pleased that he has determined to abandon the "Screw" and purchase "Ingersoll's Press."

B. W. L. A PPROVED AND HIGHLY RECOMMENDED BY the French Medical Faculty, as the only safe and infallible antidote against infection from Special Diseases. This invaluable preparation is suited for either sex, and has proved, from ample experience, the most efficient and reitable Preventive ever discovered, thus effecting a desideratum long sought for in the Medical World. It used according to directions every possibility of danger may be avoided; a single application will radically neutralize the venercal virus, expel all impurities from the absorbent vessels, and render contamination impossible.

OFFICE OF KING'S MOUNTAIN RAILBOAD COMPANY, OFFICE OF KING'S MOUNTAIN HAILROAD COMPANT, YOUNVILLE, S. C., April 15, 1867.
GENTLEMEN: I have just received your letter of February 14th—upon my return to this place, after an absence of two months—and this reply may be too late for your "Descriptive Circular of Ingersoll's Cotton Press."

The Fress I used in packing my cotton last year worked admirably, packing, with ease from 500 to 525 lbs. With good active hands to work it, I am satisfied that from eighteen to twenty bales might readily be packed in a day. MANUFACTURERS AND PATENTEES of the celebrated COMBINATION
ORADLE AND BABY TENDER, Propelling Horses, and all kinds of Rocking Horses, Invalid Chairs, with double
and single wheels, from \$25 to \$45;
Ohilbren's Juriages, Fancy and Varnished Wagons,
Fancy Boll its, Invalid Carriages, made to order. Fancy
Prophier and Baby Rockers, &c., &c., life-size Horses,
madenc eler.

that from eighteen to twenty bales might readily be packed in a day.

This Press combines the advantages of lightness, and consequent portability and simplicity (being easily managed by any one of ordinary intelligence). Great compressing force, with little motive, power, and "last, but not least," it is worked entirely by hand, thus saving for the farm horses the hard labor imposed upon them by the use of the ordinary "Screw".

Respectfully, &c., yours, E. M. LAW.
